

Bravo GO

Safeguard your every ride

Commuting has become a routine part of Hong Kong people's daily lives. Every day, you travel on public transportation like crowded buses, trains, MTR, taxi or ferry, navigating your way through the busy streets in one of the most densely populated cities in the world. On the weekends, you may visit some new places in town by getting on the private car of your friend who offers you a free ride. These seemingly inconsequential little journeys involve risks and dangers that may easily be overlooked.

Bravo GO allows you to safeguard every member in your family at one cost, with extensive protection covering new born babies to adults aged 70. Whatever happens and wherever you are, Bravo GO gives you peace of mind knowing that there will be a way to deal with these situations.
